## Letter from the President

Dear Commodore Amiga Owner:

Since our founding ten years ago, we have prided ourselves on bringing our customers outstanding values.

In 1991, we were the first company to bring Commodore owners the exciting Amiga 500 trade-up offer which broke the \$400 price barrier for the first time.

Now, in 1992, we are again blazing new trails with the first ever Amiga **BELOW \$300!** This is the lowest price we, or anyone else, has ever, ever offered on the amazing Amiga multimedia computer. On the following pages, you'll see this value as well as great software and accessory packages that can save you hundreds of dollars from normal retail pricing.

At TENEX, we are totally committed to making computing affordable for Commodore and Amiga owners. With this spectacular Amiga 500 offer, as well as great values like our Commodore-ready printer for only \$119.95, we hope you'll agree we are succeeding! Drop us a note and let us know how we're doing!

Roger B. Dooley

*Roger*  
President

**Note: Front cover images created using Amiga 2000 and Video Toaster.**

## Your Safe, Easy Way to Huge Savings

### Lowest Prices Guaranteed!

TENEX guarantees its customers the lowest prices!

If you find a lower published price, we'll beat it!

Call Customer Service for Details

### Satisfaction Guarantee—

If, for any reason, you aren't completely satisfied, call within 15 days of delivery (30 days for our computers!) for a full refund or replacement. NOTE: to keep your costs at a minimum, opened software can only be exchanged for a working version of the same title.

### Easy Ordering— 1-800-776-6781

Call toll free: nationwide— and now Canada! Order fast and easy by phone with your credit card, or mail in your order. We welcome corporate P.O.s— ask about leasing! Please see page 30 for more policy information, other payment methods, and foreign orders.

**Individuals** may use credit cards or COD by phone, or mail money orders, cashier's checks, and personal checks (please allow two weeks to clear).

**Businesses** may use the above methods or mail/fax Purchase Orders (with approved credit). Or, save cash with easy leasing.

### Lowest Prices—

We search the world over and use our enormous buying power to provide you with the biggest savings anywhere!

### Unlimited Free Technical Support—

Our Friendly Professionals™ are always just a phone call away, ready to answer your questions.

### Fast, Safe Shipping—

All shipments are carefully packed, fully insured, and UPS or express delivered to your office or home. See page 30 for our low shipping charges.

### No Charge for Visa, MC, or Discover—

Of course, your charge card is never billed until your order is shipped! Please see page 30 for other payment methods.

### No Sales Tax—

We don't charge you for sales tax outside Indiana.

# TENEX Introduces: WORLD'S LOWEST PRICE FOR AMIGA 500!

Dear TENEX Customer:

You know you can look to TENEX for the best prices on everything for your Amiga and Commodore computing needs, and we've put together the BEST DEAL EVER OFFERED on an Amiga 500. For the ABSOLUTELY INCREDIBLE price of only \$299.95, you can purchase a COMPLETE AMIGA 500 COMPUTER SYSTEM! The Amiga has never, ever been this affordable. Imagine - for a little more than the cost of a Super Nintendo, and a whole lot less than the very cheapest, no-color IBM compatible, you can get a full-fledged home computer. Right out of the box, the Amiga can run games - the best games in the world, most agree - not to mention great educational software and productivity applications.

What's the catch? There IS no catch! The Amiga 500 you'll get for \$299.95 includes not only the computer itself, but a built-in disk drive, keyboard, power supply, mouse, 512K RAM, and the Workbench operating system. The only decision you have to make is how you will display the Amiga's colorful graphics - on a TV with an inexpensive adapter or on the powerful Amiga 1084S Stereo Monitor. We're even offering some great deals on both the adapter and monitor, as well as some great enhancers like memory expansion and printers so you can save even more on your Amiga dream system.

At this price, the Amiga 500 is an unbeatable deal! Why would anyone buy a costly game machine when they can buy a FULLY EXPANDABLE COMPUTER for a few dollars more. Don't be fooled by the low price - the Amiga 500 has a complete range of accessories and software that let it run the most demanding applications you can imagine: word processing, spreadsheets, databases, graphic design, video titling and manipulation, animation, and more. For the price of a toy, you're getting the best home entertainment value on the market PLUS the base for a powerful productivity workhorse!

Check out the great values we offer, but don't take too long to decide - our supply of Amiga 500s and these specially priced option packages is strictly limited, so order yours today!

**Commodore®  
AMIGA®**

**\$299.95**

## Amiga 500 Computer- Basic Package

What computer was the first to run Lemmings and Shadow of the Beast? What computer was the first low cost path to exciting video titling and effects? The Amiga, of course. Now, at an earth-shattering price of just \$299.95, you can join the world of Amiga computing! Find out why over THREE MILLION have been sold worldwide. In Tenex's Basic Amiga 500 package, you'll get the Amiga 500 itself with built-in keyboard and disk drive, plus the power supply, mouse, documentation, and Workbench operating software. The Amiga 500 is powered by a Motorola 68000, 16/32 bit CPU, displays a whopping 4096 colors for realistic graphics, offers 4-voice stereo sound output and built-in speech, and comes standard with 512K RAM. Use optional TV Adapter to display on your TV, or use with 1084S monitor (not included - see below for a great value).

**Amiga 500 Basic Package**

**C10527**

**\$299.95**

## Options for the Basic Package

### TV ADAPTER.

This Commodore-built adapter is more than just an RF modulator - it has both an RF output and switch-box (to connect to the cable or antenna terminals on your TV) and composite audio/video outputs (to connect directly to the audio/video inputs on your TV, VCR or composite monitor). A great way to get started with your Amiga 500!

**TV Adapter**

**79283**

**\$34.95**

### TENEX RAM 500.

Double the memory in your Amiga 500 instantly by adding this 512K upgrade. Includes real-time clock/calendar. Plugs right into the Amiga 500's memory expansion port (no disassembly required.)

**TENEX RAM 500**

**C10597**

**\$49.95**

### COMMODORE A501 MEMORY EXPANSION.

512 K Memory Expansion for Amiga 500 direct from Commodore. Covered under Commodore Express Warranty if purchased at same time as Amiga 500.

**A501**

**79268**

**\$59.95**

**\$299.95**

**with A500  
Purchase**

### 1084S RGB/COMPOSITE MONITOR WITH STEREO SOUND.

For the best possible sight and sound from your Amiga! If you want to showcase the Amiga's unmatched graphics and sound, or plan to use your A500 for productivity applications like word processing, the 1084S is your best display choice. Composite hookup also allows use with Commodore 64/128 and VCRs (requires composite cable - sold separately). Plus, there's a big advantage to buying your 1084S at the same time as your Amiga 500 - Commodore extends the 1084S's warranty from 90 days to a full year AND covers it under the Commodore Express home and office pickup service!

**1084S Color Monitor**

**74095**

**\$319.95**

**Special - When purchased at same time as Amiga 500— Only \$299.95  
Includes 1 Year extended warranty and home pickup service.**

## Commodore Express: 24-Hour, Toll-Free Help

When you buy some computers, you're on your own. But Commodore backs its Amigas up with the most advanced warranty and service plan in the industry: the Commodore Express one-year warranty. Each computer includes a 24-hour toll free number that you can call if you are experiencing any kind of problem in starting up or operating your computer. If the helpful technicians at Commodore Express can't solve your problem over the phone, they'll dispatch an air express service to pick up the defective product at your home, return it to Commodore, and promptly deliver your repaired unit or a replacement. Plus, if you purchase a Commodore-brand peripheral like a 1084S Monitor or A501 Memory Expansion at the same time as your Amiga, its warranty is extended to the same full year as the computer and the product is backed up by Commodore Express as well.

Of course, TENEX is an authorized Commodore and Amiga repair center, and can handle both in-warranty and after-warranty service needs.

## Productivity Powerhouses!!

Free  
Database!

## FLEET SYSTEM 2+.

Four powerful applications for the Commodore 64 combined in one easy-to-use package: Word Processing, Dictionary/Spell Checker, Integrated Thesaurus, and Database. Includes a built-in, 80-column preview, so "what-you-see-is-what-you-get"; pop-up windows; mail merge; search and replace; horizontal scrolling; an extra text area to use as a scratchpad; and support for the most popular printers. You'll love the integrated 90,000 word dictionary and can add 10,000 "custom" words. The spell checker can scan a four-page document in under 60 seconds. The thesaurus provides instant access to thousands of synonyms and antonyms.

PSI even includes their Fleet Filer, a super-fast, menu-driven Database that can handle up to 5,000 records and 20 text or numeric fields. Take advantage of the powerful Report Generator and have the ability to create up to nine multi-column labels. In addition, Fleet Filer sorts records and input/output information to Fleet System 2+, 4 and most major word processors. Purchased separately, Fleet Filer would cost \$39.95. Don't pass up this exclusive offer! From PSI.

# See How Powerful Your Commodore Really Is!

**GEOS 2.0**  
**\$44.95**

**GEOS 128 2.0**  
**\$49.95**

If you are one of the few Commodore owners who doesn't own GEOS, now is your chance to enter a new world that combines ease of use with incredible power and capability. If you already own an older version of GEOS, now is the time to invest in an upgrade that not only offers more speed, power, and versatility, but offers more applications than ever before.

## GEOS 2.0.

As a graphic operating system for the C64, GEOS 2.0 provides a Macintosh-like icon based interface. Loaded with new enhancements, GEOS 2.0 and GEOS 128 2.0 now include seven applications plus five pop-up desk accessory features. Open a new world of integrated and graphically oriented applications. Easy-to-use icons, pull-down menus, and windows allow the beginning user to feel right at home with the computer. More advanced users will find the power and sophistication needed for any job. And the "What-You-See-Is-What-You-Get" display means there are no surprises between screen and printer. Note: GEOS 128 2.0 requires 80-column RGB monitor. From Geoworks.

GEOS 2.0, C64, Disk	43922	\$44.95
GEOS 128 2.0, C128, Disk	68956	\$49.95

Cheatsheet Keyboard Overlays  
See Page 37

## GEOS 2.0 and GEOS 128 2.0 Include:

- **geoWrite 2.1** is a full-featured word processor that allows you to format individual paragraphs, insert, delete, or move copy, word wrap, select fonts and styles, and more.
- **deskTop** is an efficient file and disk manager that allows you to view files as icons or text, sort files, recover deleted files, and more.
- **Text Grabber** is a new feature that allows text from any Commodore word processor (PaperClip II, Fleet System IV, Word Writer 128, and others) to be imported to GEOS.
- **geoMerge** is a new mail merge program that allows you to create customized form letters and labels.
- **geoPaint** is a high-resolution graphics editor that allows you to create charts, diagrams or images, stretch and scale images, produce overlay effects and much more. You can even print in color with the Star Micronics NX-1000C Rainbow Printer. See page 23.
- **geoSpell** is a new spelling resource that allows you to create your own dictionary or view existing dictionaries and documents while spell checking.
- **diskTurbo** runs GEOS applications five to seven times faster, offers keyboard shortcuts, and more.

## Desk Accessories

Five handy utilities accessible from within any application. Includes:

- **Calculator**
- **Photo/Text Managers**
- **Screen Preference Manager**
- **Notepad**
- **Alarm Clock**

## ClipArt & More Fonts for Your Commodore

### FONTPACK PLUS.

This GEOS accessory gives you 43 incredible new fonts plus 10 of the most popular fonts from FontPack. Requires GEOS. From Berkeley Softworks.

71913

Sug. Retail \$99.95  
\$79.95

## FLEXIDRAW VERSION 5.5.

This version of the ultimate drawing program has more features than ever. You can still use a light pen as your input tool (sold separately), or you can use a mouse, joystick, or Koala pad. Whether you are doing simple free-hand sketches or complex CAD-type drawings, Flexidraw has the power you need with its top-quality, hi-res graphic input and editing system. The master disk has the main drawing routines for use with the light pen, as well as sample drawing library, symbol templates, and a music synthesizer program. A programming mode lets you access the drawing routines from BASIC. The sprite editor/ animator adds a great plus to Flexidraw—there's no easier way to edit sprites than with a light pen. The most powerful feature is the ability to use a set of symbols (yours or ours) which can be moved to a second work screen and added to a drawing.

Flexidraw is easy to use due to the sophisticated menu system which is similar those of large computer drafting systems; maximum detail is possible. Free-hand drawing is very smooth because of an "averaging" function that filters out noise and jitter. From Inkwell Systems.

## The TENEX Mailbox

**Send Us Your Comments  
With Your Photo!**

Something NEW at TENEX! Recently, we've received lots of wonderful comments from our loyal customers along with their entries in the TENEX Winner contest. So we've decided to update the contest and ask ALL of you to share your comments about TENEX with us and all our readers, worldwide.

It's very simple. Just send us a photo or slide of you, your family, office, or class gathered around your computer system, along with your statement about TENEX! No purchase necessary, just lots of smiles and your comments, please.

Winners' photos and comments will be published in future "Everything Books," and winners will receive a \$50.00 TENEX gift certificate. Our production staffers will choose the winners solely on the suitability of the photo and comment. All decisions are final. Points to remember:

1. Be sure to write your name, address, and daytime phone on the back of the photo. If you use an office or school, please identify.
2. All submitted materials become the property of TENEX and cannot be returned.
3. Offer void where prohibited. Not open to TENEX employees or their families.
4. Send photos to: **TENEX**, P.O. Box 6578, South Bend, IN 46660.

### From the TENEX Mailbox

Dear TENEX

I hope you don't mind me adding a note with my letter to the photo contest. I had a stroke June 18, 1991, I've had carotid surgery done since...I bought a used Commodore 64. At first I wished I hadn't bought it...it took several days or a week sometimes to figure out how to run simple things. I still have problems but they are getting farther and farther apart. I can truthfully say that this used computer got my thinking to where it is right now.

Sincerely,  
Elmer Lynch

Elmer is a resident here at Plantation Key Convalescent Center. He has been wanting to write to you since he first got your catalog. I feel that the computer has given him measurable goals to reach in his therapy and brought hours of enjoyment.

Sincerely,  
Steven R. Crumley Sr.  
Director of Activities

Dear Elmer,

Stories like yours are rewarding to all of us here at TENEX. Keep up the progress!! We're rooting for you!!

# Our Best-Selling Printers Ever!

## NX-1000 Series— Three Models to Choose From!

**\$119<sup>95</sup>**

With the exception of the Star NX-1000C Multi-Font, all of the printers listed here include a standard parallel interface for use with Amiga or IBM-compatible computers. Using one of these parallel printers with your Commodore computer requires a Super Graphix or G-Wiz interface as shown on page 23.

### Commodore-Ready Printer!

#### NX-1000C Multi-Font Our Lowest Price Ever!

##### NX-1000C MULTI-FONT.

Enjoy near-letter quality output at 36 cps and high-speed draft printing at 144 cps. The NX-1000C features the new paper parking function and convenient front panel controls. Offers great versatility with four built-in fonts and over 20 typestyles. This is the Commodore-ready version of the NX-1000. You can just plug it in and start printing—no additional interfaces or cables are required. Two-year warranty.

## STAR NX-2430 MULTIFONT.

You know the importance of creating the right image. Now, that image is easy and affordable to create with Star's newest offering—the NX-2430. This 24-wire workhorse produces output at 360 dpi for exceptional, letter-quality print. It comes equipped with 11 (nine LQ and two draft) resident bitmapped fonts and a special Windows 3.0 program that adds an additional 13 fonts for IBM users. Speed through your drafts at 240 cps with LQ speeds up to 80 cps. Great for high-volume environments!

Easily control more than 20 functions from the front panel. For versatility, choose among three paper paths and a wide variety of enhancement modes. You can even opt for portrait or landscape printing. The 16KByte buffer makes font downloading easy and convenient. Offers two-year warranty, parallel interface and IBM and Epson emulation—in fact, the NX-2430 senses the emulation needed and automatically changes the setting. That's smart! That's Star! Sug. - 1MByte RAM
- H-P & Epson compatible
- Small footprint

**Free 150 Fonts! Limited Quantities!**

## STAR LASER PRINTER 4.

What's the best reason to own a Star Micronics Laser Printer 4? Maybe it's the H-P compatibility, from toner to font cartridges. Or, perhaps it's the optional Stargate board that provides true PostScript capability at a breakthrough price. Possibly, the best reason is the FREE 150-font cartridge that's included with your purchase.

But, what about all of the great features that come standard? You get crisp 300 dpi output that rivals more expensive printers, a footprint small enough for any desktop, 14 resident fonts, a full 1MByte RAM that gives you the freedom to download a variety of typefaces for fast and versatile printing, serial and parallel interfaces, a 50-sheet paper tray, H-P LaserJet IIP/Epson FX-850 emulation, and more.

The Laser Printer 4 is expandable to 5MByte RAM. Optional Stargate board and 2MByte RAM required for PostScript. Limited 2-year parts and labor warranty.

## Choosing the Right Printer!

Don't be confused by the wide selection of printers available in today's market. Here are a few pointers to help you select the right printer for your present and future needs.

### Commodore-Ready vs. Parallel.

Each printer we sell has a connector on its back or side to which a printer cable or interface attaches. Most of the printers we sell are "parallel" (also called "Centronics") printers. One printer, the NX-1000C Multi-font, is a "Commodore-ready" printer.

Commodore-ready printers come complete with a cable to plug directly into your Commodore system. No other interface or cable is needed.

Parallel printers are designed to connect to IBM-compatible, Amiga, and other computers. To connect them to a Commodore system, you need a parallel interface such as those shown on page 23.

Choose a parallel printer if you think that you may want, either currently or in the future, to use the printer with a non-Commodore computer such as an IBM compatible or an Amiga. You may also have to choose a parallel printer if you need features, such as 24-wire printing, not available on a Commodore-ready printer.

Choose a Commodore-ready printer if you want to minimize your out-of-pocket cost and if you intend to use the printer only with your Commodore system.

### 24-Wire vs. 9-Wire Printing.

All dot-matrix print is composed of tiny dots created by wires in the print-head. The quality of dot-matrix printing has improved remarkably since the early days when the dots were clearly visible. Today, even 9-wire printers are capable of excellent near-letter quality. For the ultimate in dot-matrix printing, 24-wire printers offer even smaller dots and higher resolution. This means that the letter-quality characters of a 24-wire printer will be slightly sharper than those of a 9-wire printer. We recommend 9-wire printers for most home, school, and light office use. If you intend to use the printer for extensive business correspondence or other applications where an extra polished look is important, consider a 24-wire printer.

### Speed.

Each printer we sell is rated for speed in characters per second (cps). Note that the speed of each printer will vary depending on whether it is printing in draft mode, near-letter quality, boldface, etc. All of the printers we sell are fast enough for home, school, and light office use. If you frequently print long documents, print primarily in near-letter quality, or print many short documents, you may find that one of the faster printers will save you time and increase your productivity.

### Buffer.

All of the printers we sell contain at least a small buffer. The buffer is an electronic holding area for data sent from the computer. Typically, the computer can send data much faster than the printer can actually print it. The bigger the buffer in the printer is, the sooner the computer can finish its task and be available for other uses. (If you do a lot of printing, particularly of longer documents, you may wish to consider an external buffer like the one shown on page 23; this can really enhance your productivity by freeing up the computer long before the printer is finished printing.)

## Panasonic's Newest Printers Are Here

Note: The printers shown on this page all have standard Centronics parallel inputs, and require an interface to connect to Commodore 64 or 128. See page 23.

**Panasonic**

### PANASONIC LETTER-QUALITY KX-P2123 PRINTER

This hot, new letter-quality printer from Panasonic offers the 24-wire print quality you need, but is priced for the home. It boasts a dramatically lower noise level than most other personal dot-matrix printers. The KX-P2123 has six letter-quality fonts, one super letter-quality font, and three draft fonts. You also get the versatility and convenience of three paper paths, memory-backed macros, and the EZ-Set operator panel that allows you to change printer functions quickly and easily.

Print speeds range from 240 cps in draft mode to 32 cps in super letter-quality mode. Plus, you get the fine detail of 360 dpi resolution. What's more, the KX-P2123 is color capable. With the easy add-on kit, you can give your documents eye-catching color. Offers 20KByte buffer, parallel interface, and Epson LQ-860 and IBM ProPrinter X24E emulation. Two-year warranty. ## Use Your C64 Printer with Any IBM-Compatible Computer!

### PC-TO-CBM PRINTER PORT ADAPTER.

Your Commodore 64 printer doesn't have to sit around collecting dust now that you've bought an IBM-compatible computer. With this clever adapter, you can use your IBM system with virtually any Commodore-compatible printer including the NX-1000C, NX-1000C Rainbow, 1525, 1526, MPS-801/802/803, Gemini II, Star SG10C, SP-1000VC, and many others. The package includes a five-foot cable which has an IBM-compatible parallel port connection on one end and a Commodore 6-pin DIN connector on the other end. The printer driver software converts the parallel port output to Commodore-compatible format. Use your printer as LPT 1, 2, or 3. Note: may not be suitable for extensive graphics use. From Omnitronix, Inc.

## Economical Buffer Saves Valuable Hours

From **\$79<sup>95</sup>**

### MICROBUFFER MINI.

Your computer can send data to your printer faster than the printer can print it. Normally, however, the computer is tied up as long as the printer is printing. With one of our high-capacity Microbuffers, your computer will be able to finish faster, and let you start using the computer again while the printer is still completing its job.

Available from 32KByte to 512KByte of buffer memory—more than 300 double-spaced pages—this compact Practical Peripherals stand-alone buffer quickly frees your computer from printing tasks. Extremely easy to install, the Microbuffer Mini can really save you hours. Parallel input and output. Works with any parallel printer. (Not for use with Commodore-only printers.) Includes cable. Five-year guarantee. From Practical Peripherals.

# Printer Supplies at Great TENEX Prices!

ONE PLY LABEL WITH IMAGE  
TRANSFER TO LINER SHEET

ORIGINAL LABEL

## Bulk Labels Save Money!

If you are tired of paying premium prices for little packages of labels that are gone in no time, try these high-quality continuous labels specially designed for computer use. The bigger packages will last longer, and you'll save big money!

### ONE-ACROSS LABELS.

Perfect for mailing lists! Labels are self-adhesive on continuous pin-punched carrier for tractor feed printers. Carrier width 4-1/4". Label size 3-1/2" x 15/16". This label will work with all mailing list programs that use a standard size label. Big 5000 quantity box at a bargain price.

**One-Across Labels** 19267 \$13.95

### THREE-ACROSS LABELS.

Self-adhesive labels on a continuous 9-1/2" wide carrier that fits all standard printers— even fixed tractor units. Labels are 2-3/4" x 15/16", and placed in rows of three. 3000 to a package!

**Three-Across Labels** 22277 \$14.95

### DISKETTE LABELS.

These 4" x 1-7/16" labels are specially designed for use on magnetic media—they feature a special latex adhesive that lets you pull the label off with no shredding and no adhesive residue. Labels are on a perforated carrier for computer use, but you can just write on them if you want to. Perfect size for any 5.25" disk. Lots of other great uses, too! Big package of 1000!

**Diskette Labels** 67464 \$11.95

## Computer Paper! 1000 Sheets! Tears Clean!

### COMPUTER PAPER.

It will be a long time before you run out of paper with 1000 sheets of this continuous 9.5" x 11" rugged bond, clear white paper. Tears clean at 1/2" side perforations and "Z" fold for letterhead-quality sheets.

**Paper, 1000 sheets** 94420 \$11.95

### PARCHMENT PAPER.

Create the best image possible with these strong, 24 lb. sheets of parchment paper. The 9.5" x 11" paper features easy-to-tear perforations and a lovely assortment of colors including muted gold, gray, ivory, and tan. Perfect for the professional look that you need.

**Parchment, 30 sheets** 94962 \$9.95

### PASTEL ASSORTMENT PACK.

Get 250 sheets of 9.5" x 11" 20lb. bond paper with easy tear perforated edges. Each pack includes an assortment of colors including pink, salmon, lavender, blue, and canary.

**Pastel Pack, 250 sheets** 94956 \$11.95

### BANNER/SPREAD ROLL.

The perfect product to support all those programs that make banners, signs, or print spread-sheets. One box contains one color. Each 45"x8.5" roll of continuous tractor-feed paper (no cross perforations) includes its own dispensing box, and "Grabber Strips," to keep the box stationary. From Banner Band.

**White** 75795 \$12.95

## World's Lowest Price for An Amiga 500!

Only  
**\$299<sup>00</sup>**

Optional monitor shown.

See Inside Front Cover for  
All Our Amiga 500 Packages

### AMIGA 500 COMPUTER-BASIC PACKAGE.

What computer was the first to run Lemmings and Shadow of the Beast? What computer was the first low cost path to exciting video tiling and effects? The Amiga, of course. Now, at an earth-shattering price of just \$299.95, you can join the world of Amiga computing! Find out why over THREE MILLION have been sold worldwide. In Tenex's Basic Amiga 500 package, you'll get the Amiga 500 itself with built-in keyboard and disk drive, plus the power supply, mouse, documentation, and Workbench operating software. The Amiga 500 is powered by a Motorola 68000, 16/32 bit CPU, displays a whopping 4096 colors for realistic graphics, offers 4-voice stereo sound output and built-in speech, and comes standard with 512K RAM. Use optional TV Adapter to display on your TV, or use with 1084S monitor (not included - see below for a great value).

## Multimedia Tools for the Amiga

### AMIGA VISION.

Commodore's powerful, icon-based software for the Amiga line of personal computers is one of the most advanced desktop multimedia authoring programs available today. Use it for the development of multimedia business presentations, interactive courseware for corporate training and education applications, and exhibits and display kiosks. And now, available separately, Commodore is offering Amiga Clips, Vol. 1: Sound Effects, the first in a series of important add-on products to enhance the power of AmigaVision even more.

**AMIGA VISION** 89661 \$99.95

### AMIGA CLIPS, VOL. 1: SOUND EFFECTS.

Now you can add over fifty different digitized sound files to your AmigaVision multimedia presentations. Give life to your interactive teaching tools, exhibits, and kiosk displays by using the sounds as audio feedback for key presses or mouse clicks. You get a wide variety of sounds including those of animals, humans, bells, whistles, clocks, phones, and more. A must-have "building block" developed for Commodore's powerful, icon-based authoring software: AmigaVision.

**AMIGA, Disk** 91951 \$24.95

## Double Your Amiga 500's RAM!

### A501 RAM EXPANSION.

Increase your on-board RAM to one full MByte with this easy expansion module. Use this genuine Commodore product with your A500—it even includes its own clock and calendar so that you'll never have to set the time and date again.

**512K Expander, A500** 79268 \$59.95

## Quality Mouses

### 1351 MOUSE FOR C64/C128.

A true proportional mouse, not just a rolling joystick, that actually measures distance it travels. Switches easily between joystick and proportional mode, for GEOS owners. Comes with demonstration disk and manuals.

**1351 Mouse** 37885 \$32.95

### 1352 MOUSE FOR AMIGA.

Original equipment replacement mouse for all Amiga computers.

**1352 Mouse** 86869 \$79.95

## Commodore and Amiga Modems

Starting at  
**\$29<sup>95</sup>**

### COMMODORE 1670 MODEM.

The 1670 features 1200 bps transfer rate for fast data communications and utilizes popular "AT" Hayes command protocol. Includes auto answer, auto dial, auto baud, auto speed, and auto mode features. Its compact size and light weight make it ideal for any system. From Commodore.

**Commodore 1670** 36952 \$74.95

### AMIGA 1680 MODEM.

This genuine Commodore modem works with both your Amiga system and IBM compatibles. Now you can connect to friends, on-line bulletin boards, and more with a fast 1200 bps transfer rate. Amiga and IBM compatible terminal software and data cable included.

**Amiga 1680** 79237 **Only \$29.95**

Perfect for Commodore 128!

**MAGNAVOX PROFESSIONAL COLOR MONITOR.**

The Magnavox Professional 1CM135 sets new standards for versatility in a color monitor! Whatever your current and future needs, this unit will handle them. First, it provides a high-quality composite display perfect for the C64 or C128 operating in 40-column mode. Second, it offers Analog RGB for use with the C128 in its high-res, 80-column mode. Third, the 1CM135 is switchable to Digital RGB, which makes it compatible with IBM's CGA standard. Fourth, for heavy-duty word processing, this monitor lets you flick a switch and convert the color display to easy-on-the-eyes green. And if being compatible with a wide range of computers isn't enough, you can also use the 1CM135 as a TV video display for signals from VCRs, camcorders, etc. It even includes stereo audio inputs and an earphone jack. It features a big 14" CRT (13" viewable), image size and position controls, and a convenient tilt/swivel base. Includes a 9-pin RGB cable and audio/video cables (RCA to RCA). Two-year limited warranty. Sug. Retail \$399.95

## A Great Video Source for Amiga or Commodore!

**Panasonic**  
Office Automation **OA**

### PANASONIC TV CAMERA.

Whether you are using your Amiga with Digi-View or any other video accessory, or your Commodore with ComputerEyes or Video Byte II, you'll need a high-quality, dependable video source. The Panasonic WV-1410 CCTV camera is a high-quality black and white camera designed for surveillance and other uses. It produces a 525-line scan with a horizontal resolution of 550 lines and a signal-to-noise ratio of more than 43 dB. It comes with a f1.6 16mm lens, and accepts other standard C-mount lenses for special applications. The included lens focuses from about 10 inches to infinity.

Please note that although this is a black and white camera, it can be used to produce full-color Amiga images with Digi-View 4.0 and similar packages. Digi-View 4.0 uses a color filter wheel to separately scan each color and produce the final full-color image. Commodore programs like ComputerEyes and Video Byte II work directly with a black and white image. From Panasonic.

## Our Shipping and Return Policy

**SHIPMENT.** Most items are shipped via UPS. Other modes of shipment include Parcel Post and, for certain heavy items, common truck carrier. TENEX maintains an extensive warehouse with over 50,000 items in stock, and automated systems are in place to speed your order to you. Rapid shipment benefits both you and us. Items not in stock may require 2 to 6 weeks.

**DAMAGE.** We inspect each item before shipment. Please examine your packages carefully when you receive them, and REPORT ANY DAMAGE TO THE CARRIER. No replacement merchandise can be issued unless a damage claim has been filed with the shipper.

**RETURNS.** We want satisfied customers! If you receive a defective product, call us within 30 days of shipment and request a return ID number. We'll ship a replacement promptly upon receipt of the defective item.

Furthermore, if you are unhappy with a product for any reason, call for a return ID number within fifteen days of receiving it, return it to us, and we will promptly replace it or refund your purchase price. (Sorry, opened software can only be replaced with an identical item.) Items returned for replacement MUST include original packaging materials and any manuals, cables, warranty card, etc. included in the original package. (For your convenience and protection, do not discard packaging materials or mail in warranty cards until you are certain the product is working properly.) Please write or call our Customer Service Department for Return Authorization number prior to returning any items to TENEX. All returns must be shipped to TENEX freight prepaid. All items are subject to inspection by TENEX prior to issuance of replacement merchandise. (Note: Occasionally a manufacturer's warranty policy will require some other means of correcting a defective product. In these cases, we'll assist you in obtaining a satisfactory solution.)

**APO, FPO, ALASKAN, HAWAIIAN, CANADIAN.** All payment must be in U.S. Dollars. Checks drawn on Canadian or foreign banks cannot be accepted. Canadian Postal Money Orders payable in U.S. funds are acceptable. VISA, MasterCard or American Express are the preferred methods of payment. **APO, FPO, Alaskan, Hawaiian, Canadian, Puerto Rican, Virgin Islands, Guam orders:** add \$4.00 to shipping and handling charge to cover postage and insurance cost. Contact us about charges for bulky and/or heavy items. **Foreign orders other than above:** add \$8.00 to shipping and handling charge. If ordering large or heavy items, consult desired carrier for estimated freight charges and include with order, or contact us prior to ordering for a freight estimate. If funds included with order are inadequate to cover shipping costs, we will notify you by priority mail. For heavy items, postage or freight and insurance charges will be billed at actual cost on credit card orders.

**PRICES.** All prices are subject to change without notice. You will be notified of any change at the time of order placement, or prior to shipment on non-stock item.

**SPECIFICATIONS AND PRODUCT AVAILABILITY.** Specifications and product availability are subject to change without notice. We have made every effort to be accurate in the specifications and descriptions included in this catalog, but cannot guarantee accuracy or completeness of these specifications and descriptions.

**PAYMENT METHODS:** For fastest shipment, VISA, MASTERCARD, AMERICAN EXPRESS, a cashier's check, certified check, or money order may be used. Personal checks are also welcome—please allow about 10 extra days for shipment. Purchase orders will be accepted from qualified institutions and firms; please inquire.

**IF ORDER FORM HAS ALREADY BEEN USED,** please write your order on a plain sheet of paper or order by telephone using our convenient toll-free number. If you send your order on plain paper, be sure you include your name and address, the catalog number of each item ordered, and the appropriate shipping charge. If you would like us to send you additional order forms, please write or telephone us.

**WARRANTIES.** Warranty repair or replacement policy will vary with each manufacturer; it will usually be necessary to return the product prepaid to the manufacturer, to TENEX, or to ship or take the unit to the nearest authorized service location. TENEX is an authorized repair center for many manufacturers, and can handle repairs in or out of warranty for those products if local repair is not available. Information about the type or length of coverage of any item is available by calling or writing our Customer Service Department.

**STORE PRICES AND PRODUCTS** may vary occasionally from Catalog prices and products.

### If You Have Questions About Your Order...

For questions about your order, call (219) 259-7053 between 8 a.m. and 5 p.m. Eastern Standard Time, Monday through Friday. No collect calls, please.

**For faster service, provide us with the date of order, your customer number, order number, items in question, how order was placed and name as it appeared on the order.**

**Trademarks.** The following are registered trademarks or service marks of the respective organizations and are used to describe various products throughout this publication.

APPLE COMPUTER: Apple. COMMODORE BUSINESS MACHINES INC.: Commodore 64, Vic 20, C128, 64C, 128D, Amiga. INTERNATIONAL BUSINESS MACHINES: IBM, AT, XT, PS/2. STAR MICRONICS: Star. UNITED PARCEL SERVICE OF AMERICA, INC.: UPS, United Parcel Service. In addition to these, many other trademarks and service marks are listed throughout the publication. # Joysticks!

## THE SLIK STIK™

A favorite for years, the Slik Stik maintains its position as a superior value. Its original patented design ensures a long, useful, and reliable life. The Slik Stik is just the right combination of responsiveness and accuracy. You'll probably never find a joystick this good at such a low price. Ninety-day warranty. From Suncom.

**Slik Stik** 42086  
Only \$6.95

## HOT STUFF JOYSTICK.

This colorful joystick has all the features you'd expect in joysticks costing much more! Blast your way through all your favorite games with two trigger buttons, two base buttons, an auto-fire switch and contoured handle with eight-direction control. They also feature four rubber suction feet, and a four-foot, stress-relief cord. For Commodore or Amiga. One-year warranty from Beeshu. Sug. Retail \$12.95

**Hot Stuff Joystick** 93093 \$9.95

## ERGOSTICK JOYSTICK.

Unlike all other joysticks, the Ergostick is literally formed around the human hand which optimizes the operator's hand/eye coordination. Its soft, skin-like texture combined with its design minimizes physical and mental fatigue and gives it a degree of versatility and function previously unknown to joystick users. For instance, it fits both large and small hands while placing the "fire" button directly adjacent to the index finger. Such a design allows you and the joystick to work as one without the delay of fumbling for the button. Ninety-day warranty. From Wico.

**Ergostick** 76253 Sug. Retail \$24.95  
\$17.95

## ICONROLLER™

Now you can have a compact, fully functional joystick always available for use with your C64 or C128, right on the keyboard. ICONtroller is perfect for use with GEOS and it lets you save your full-size joystick for gaming. A special connector lets you plug in your full-size joystick without removing the IconTroller. No more hanging cords. It's easy to reach and responds quickly—ICONtroller makes your computing easier. Full one-year warranty. From Suncom.

**ICONtroller** 72863 \$16.95

## ZOOMER.

This hot, console-type controller features advanced technology that makes four-wheel racing games, cycle games, air combat games and flight simulators much more realistic! Turn the wheel left or right and tilt up or down. Fire buttons are built into the handle and it's equipped with two Dial-A-Speed auto-fire buttons. Comes with 10-foot cord and four super-strong suction cups for easy mounting on a smooth surface. From Beeshu.

## From the TENEX Mailbox

Dear TENEX

Most of the computer software stores in my area have phased out or are decreasing Commodore software and supplies. The Tenex Catalog is indeed a rare and exciting find! It contains a versatile mix of games, educational software and Commodore supplies that is virtually unmatched by any other computer supply company. Thank you Tenex for supplying the software to make me proud to be a Commodore owner.

Thanks,  
Lowell S. Ward  
Milwaukee, WI

## From the TENEX Mailbox

Dear TENEX

I live in a small town where it is impossible to find software and hardware for my C64 and Amiga 500. When I discovered Tenex I was overwhelmed with delight. You have the best prices and more selection than any store in a big city. Tenex is THE computer store through the mail.

Thanks,  
Irene Bordovsky  
Yoakum, TX

## Low-Cost, High-Quality Diskettes!

**Lifetime Warranty!  
Risk-Free Trial!**

TENEX Diskettes are among the best-selling items in our catalogs (we've sold literally hundreds of thousands of these diskettes!). They are an excellent buy in our quantities of 50, and their reliability, lifetime warranty, and risk-free trial means you are sure to get your money's worth.

### Here's What You Get.

Each box includes diskettes in sleeves, labels, and write-protect tabs. All 5.25" diskettes have a hub reinforcement ring and come with sleeves.

### Certified Quality.

TENEX Diskettes are first-quality, prime diskettes (no seconds). Each one is individually certified to be 100% error free at levels equal to or above ANSI, ECMA, and ISO standards.

### Lifetime Warranty and Risk-Free Trial!

We offer a double guarantee of satisfaction: 1) All diskettes are backed by a lifetime warranty. If you have a problem, we'll replace the diskette. 2) Discover what a great value these diskettes really are by trying them risk free. Buy a box, and if within 30 days you aren't happy with the diskettes for any reason, return them to us for a prompt refund. No questions asked!

# Enter the Exciting World of Telecomputing!

## Modem Power for Commodore & Amiga

**\$59<sup>95</sup>**

1200 Baud  
C64/C128

One of the most popular uses of home computers is to "talk" to other computers and computer users. The diversity of on-line services is staggering—from the latest news to airline schedules, from stock prices to interactive adventure games, from electronic mail to patent searches—all you need is your computer, a modem, terminal software, and a phone line. In addition to the national on-line databases, like The Source, CompuServe, Dow Jones, and others, there are thousands of local "bulletin boards" run by user groups or individual enthusiasts.

**\$79<sup>95</sup>**

2400 Baud  
C64/C128

Now Available in 2400 Baud

Hayes & Commodore 1670 Compatible

Free Novaterm Software

Now for Amiga, Too!

### 2400 BAUD COMMODORE-READY MODEM.

At last! High-speed communications in a modem that is completely Commodore compatible! The Aprotek Minimodem-C24 looks just like the Minimodem-C, our best-selling modem ever, but works at speeds up to 2400 baud. Think how much faster you will be able to send and receive information from bulletin boards, services like CompuServe, and other computers.

Both the Minimodem-C and -C24 are completely Hayes compatible (not just partially compatible like the 1670 and some Avatex models) and 1670 compatible. This means they'll work with ALL communications software for the 64, 64C, and 128. Key features include seven status indicators, Busy Detect, DTR signal support, High-Speed Detect Line, and Auto Answer/Auto Dial. Includes terminal software so you

can start communicating right away, plus a free trial hour on CompuServe!

The Amiga version of the Minimodem is equipped with a female connector to plug directly into the Amiga 500 or 2000. It needs no external wall plug for power, and it uses the Amiga's audio output for maximum fidelity. Full-year warranty. From Aprotek.

Minimodem-C (2400 Baud for C64/C128)	88148	\$79.95
Minimodem-C (1200 Baud for C64/C128)	81576	\$59.95
Minimodem-AM24 (2400 Baud for Amiga)	88150	\$79.95

## 1750 Compatible

### Supercharge Your C64 or C128

### THE 1750 COMPATIBLE.

When Commodore designed its 1750 RAM expansion, Commodore owners snapped them up. For their money, they got a full 512KByte of RAM. More important, they were able to dramatically improve the performance of their software.

As good as the 1750 was, there was just one problem: Commodore didn't make enough of them. In fact, 1750s have been unavailable for quite some time.

At last, TENEX has a solution: the 1750 Compatible. The 1750 Compatible offers 512KByte just like the 1750, and works with all software that is 1750 compatible (e.g., GEOS, Paperclip III, and Maverick). Furthermore, you can use it to create a RAM disk to store files or programs for lightning-fast access. (Unlike GEORAM, the 1750 Compatible works with non-GEOS software.)

Make the big switch: add another 512KByte of memory to your system today, and watch your software fly!

**IMPORTANT NOTE.** The 1750 works with both the C64/64C and the C128. Use with the C64/64C requires a heavy-duty power supply (not included with the 1750 Compatible—see below). To use with the C128 or 128D, no additional power supply is needed—the standard factory power supply is fine.

1750 Compatible	97370	\$149.95
Power supply	89503	\$44.95

## 1670 Modem 1200

### COMMODORE 1670 MODEM/1200.

It features 1200 bps transfer rate for fast data communications and utilizes the popular Hayes "AT" command protocol. Features auto answer, auto dial, auto baud, auto speed, and auto mode selection. Its compact size and light weight make it ideal for any system. From Commodore.

1670 Modem	36952	\$74.95

## Use Your Commodore-Ready Modem with IBM, Amiga

### CONVERT-A-COM.

Now you can use your Aprotek Minimodem-C, C-24, or Commodore 16xx-Series modem with other computers. This converter has a 25-pin "D" female connector that hooks up to the RS-232 serial port of virtually any computer. The Minimodem-C and C-24 become 100% Hayes compatible for widespread compatibility. Use with the Commodore 16xx Series provides a reduced Hayes command set. Note: not for Anchor 6480 modems.

Convert-A-Com	90960	\$34.95

## Cartridge Port Extender Cable

**\$19<sup>95</sup>**

### CARTRIDGE PORT EXTENDER CABLE.

Are you cramped for space behind your computer? Is it hard to reach your cartridge port to plug-in or swap cartridges? This handy cable is your solution.

The cartridge port on the C64 and C128 is unfortunately located in a somewhat awkward position—horizontally in the back, where it is hard to reach and impossible to see. Many users have installed cartridge expanders, which not only let you switch cartridges easily but also place them vertically for easier access. The cartridge expander, though, takes up a few more inches of table space—no problem for most users, but a drawback for those working in tight quarters. The cable connects to the cartridge port in back of the computer and lets you plug in your cartridge to its other end. Since the cable is flexible, you can locate the cartridge up to 11" away for easier access and more efficient use of table space. Note: Not for use with memory expansion modules.

Cartridge Port Extender Cable

## Command with Your Voice! Talk, Don't Type!

**HEAR SAY INC.**

### HEARSAY 1000.

A voice recognizer/synthesizer that talks, listens, responds, teaches, obeys, and is loads of fun. Just plug into a C64 or C128, and within minutes, even your youngest children will be able to speak to your computer. Can convert your verbal commands into actions and virtually eliminates the need for your computer keyboard. Hearsay can also speak any language or dialect. Features unlimited, 100% accurate vocabulary and built-in software. Interacts with most pre-existing, name-brand, menu-driven software. Truly makes learning with your computer easy and fun.

## Don't Wear Out Your Computer and Cartridges!

### CARTRIDGE EXPANDER.

Stop wearing out your computer with endless cartridge swapping! This three-slot cartridge expander keeps your most commonly used cartridges plugged in and ready for instant selection! Also lets you reset the computer independently of the power switch. This saves wear and tear on the cartridge and the computer! Save yourself one repair job and the cartridge expander has paid for itself several times over. Vertical slot design eliminates blind fumbling in back of the computer, too. Not recommended for RAM expansion units. A great buy!

### DISKMASTER II.

The ultimate file management utility for all Amiga computers! Features multiple resizable, and movable file and command windows. Can save configurations for fast startup, auto commands, and font changes. Also includes multi-format and multi-copy options for simultaneously formatting of up to four floppy drives. From Progressive Peripherals.

AMIGA, Disk 95936 \$39.95

**NEW LOW PRICE**

### VIRUS PROTECTOR.

This innovative virus fighter connects to the external floppy drive and your Amiga. It provides a write protect and virus protect function to stop any attempt to write on track zero of your internal and external floppy drives. From Roctec.

Virus Protector 95270 \$39.95

**NEW LOW PRICE**

### FLASHBACK.

Spotting features previously found only in PC programs, this stand-alone back-up product creates "mirror" or image backups of multiple partitions, rather than "file-by-file." You can also do timed, unattended backups. It supports ALL controllers, and will backup to a wide variety of devices, including: 3.5" floppies, 5.25" floppies, high-density floppies, tape drives, and more. From Preferred Technologies, Inc.

AMIGA, Disk 92953 \$45.95

**NEW LOW PRICE**

### RAWCOPY V1.3k.

Reproduce disk copy-protection schemes and remove copy and password protection schemes from programs. The package includes 201 parameters and sports an intuitive interface which makes nearly everything just a button click away. For archival back up only.

AMIGA, Disk 87466 \$34.95

**NEW LOW PRICE**

## Speed Up Your Amiga's Access Time By 500%

### B.A.D.

B.A.D. analyzes, restructures, and processes any AmigaDOS disk so that permanent, increased access speed is achieved. And there's no special programming needed—B.A.D. automatically detects the file system in use. This is not a memory-hungry, RAM cache-based system. B.A.D. supports multiple partitions and provides fast CLI directory access. It's 100% AmigaDOS and WB1.3 FastFileSystem compatible. This will become one of your most valued utilities. Requires two 880KByte storage devices. From M.V. Micro.

AMIGA, Disk 89345 \$29.95

**NEW LOW PRICE**

## Back-Up Protected Software

### New Version 4.0 for Amiga!

Amiga Features Include:

- Three Button Control:
- Button #1— Hypercopy.
- Button #2— Parameters.
- Button #3— Override (R) System.

### MAVERICK FOR THE AMIGA, V4.

The Maverick screen is a clean control panel designed to allow you to operate the program as if it were a physical piece of hi-tech equipment. A single window displays a scrolling list of all the known titles that Maverick copies. This version includes more override parameters, custom copiers, and even removes annoying documentation protection. Select your button and put this archival utility system to use right away!

AMIGA, Disk 89601 \$32.95

## Powerful and Efficient Utilities

### New Version!

### AMI-BACK v2.0.

The premier backup utility for your Amiga is now available in an even more powerful version. Ami-Back v2.0 will run on any Amiga configuration with a hard drive. You get support for Workbench 1.3 and 2.0, hard drives, floppy drives, DAT drives, and all true SCSI devices. Ami-Back v2.0 does the job and does it fast! Its data compression capabilities are especially useful for those who often backup to floppies. Other new features include recovery backup utilities, the ability to set passwords preventing unauthorized users from gaining access, and AREXX support. Plus, the new, full-featured graphic scheduler makes unattended backups a breeze. All in all, Ami-Back v2.0 is the complete solution for reliable data protection. From Moonlighter Software.

AMIGA, Disk 94057 \$49.95

### AMI...ALIGNMENT SYSTEM.

Includes a program disk, a specially prepared calibration disk, and an operations manual to evaluate the mechanical condition of internal and external 3.5" disk drives used with your Amiga. Manual covers Commodore and third-party disk drives. From Free Spirit.

AMIGA, Disk 84884 \$29.95

### WORKBENCH MANAGEMENT SYSTEM 2.

Launch as many programs as your memory will allow by simply clicking on a button—and you "attach" an unlimited number of buttons to your software. Also includes eight utilities such as a text editor, calendar to keep your appointments (and remind you), a phone book with dial capability, and a data compression program.

AMIGA, Disk 94049 \$49.95

**NEW LOW PRICE**

### SAS/C COMPILER.

No other language or C compiler gives you more powerful or more efficient programs. It's the most complete programming environment available with a full array of productivity-enhancing tools and utilities.

AMIGA, Disk 94408 \$199.95

## The Latest and Greatest Amiga Operating System

### AMIGADOS 2.04.

This significant upgrade brings the Amiga operating system to a new level of functionality. It is the friendliest, most robust version to date. It's new, 3D interface features pull-down menus and convenient double-clicking options that let you navigate in the Amiga environment with tremendous ease. AmigaDOS 2.04 improves the stability of your system, vastly reducing the frequency of system crashes and downtime. You also get a heartier, more flexible development environment with the inclusion of AREXX. Because the Fast File System has been improved in speed and reliability and now resides in ROM, installation requires removal of the existing ROM BIOS chip. Note: users of A2500 systems should consult with our technical support staff for details on upgrading.

AmigaDOS 2.04 for A500/A2000 96335 \$89.95

AmigaDOS 2.04 for A3000 97707 \$34.95

## Share IBM/Amiga Data!

### DOS-2-DOS.

DOS-2-DOS enables your Amiga to read and write to diskettes produced by MS-DOS and Atari computers, and vice versa. Do you have an IBM at the office and an Amiga at home? Want to take work home? No problem—DOS-2-DOS converts data from one platform to be used on another. It's just that simple. So put an end to the frustration, get DOS-2-DOS. Runs from CLI or Workbench V1.2 or V1.3. From Central Coast Software.

AMIGA, Disk 98403 Retail \$55.00 \$31.95

# Data Management & Virtual Reality!

## VIRTUAL REALITY STUDIO.

With this remarkable utility, you can create your own virtual reality. Design 3D objects such as cubes, rectangles, blocks, houses, helicopters, bridges, fences.... Then, place the objects in a world of their own. Move them, enlarge them. The possibilities for design and games are unlimited. This construction kit will change the way you look at your own world as well as worlds that have yet to be imagined!

AMIGA, Disk

### Reach Powerful Heights with DataFlyer Hard Drive Expansion

#### DATAFLYER.

Easily expand your A500 or A2000 with this hard drive expansion kit. The DataFlyer is a top-quality, high-performance SCSI controller. Mount your favorite hard drive in the included half-height, external chassis or utilize the expansion slot on your A2000. For ease of installation, formatting prep programs, driver software, and all hardware and cables you'll need are included. The DataFlyer is designed to accept the DataFlyer RAM memory board for even better system performance. Compatible with Kickstart 1.3 or higher and Workbench 1.3 and 2.0. Note: hard drive not included. We recommend one of the fine SCSI hard drives listed below.

DataFlyer 500	99062	\$139.95
DataFlyer 2000	99058	\$79.95

#### SCSI HARD DRIVES.

DataFlyer 500	99062	\$139.95
Quantum 240MB, 3.5", 1" high, 16ms drive	98448	\$719.00
Quantum 105MB, 3.5", 1" high, 17ms drive	97124	\$369.00

#### DATAFLYER RAM.

For even more power and versatility, add DataFlyer RAM in 2, 4, or 8MByte increments. These boards, with a capacity of 8MByte, are populated with fast 80ns, zero wait-state RAM and allow you to run very large RAM disks as well as larger, more sophisticated programs.

The DataFlyer RAM board easily installs into an expansion slot of your A2000 or plugs into the controller of the DataFlyer 500. Note: Depending upon your system configuration, use with the A500 may require an optional power supply. Also, if you have a 2 or 4MByte board and wish to add more memory, then the 1MByte x 8 SIMMs must be added in pairs.

DataFlyer RAM, 2MByte	99080	\$179.95
DataFlyer RAM, 4MByte	99091	\$259.95
DataFlyer RAM, 8MByte	99109	\$399.95

1MByte x 8 x 80 SIMMs	93693	\$44.95
Bigfoot power supply	92898	\$94.95

### Powerful Plug & Play Performance

"We recommend the 500XP for any computing purpose, especially for those who don't want to deal with a complex hard drive installation or wrestle with poorly written documentation."

— AmigaWorld, March 1991

#### SUPRADRIVE 500XP HARD DRIVES.

Choose one of these high-performance hard drives for your Amiga 500 system and get additional RAM to boot! These low power consumption drives are already formatted—just plug and go. Includes back up, file management, formatting, and utility software. One-year warranty.

52MByte with 1MB	96445	\$465.00
52MByte with 2MB	96455	\$545.00

# Save on the Perfect Hard Drive for Your Amiga!

## Impact Series II Hard Drives & Controllers from GVP

### SYSTEM UPGRADES

43

Add up to 8MByte RAM  
with easy plug-in modules

Add IBM-AT  
286-16MHz emulator

Upgrade System for Amiga 500

### A500 IMPACT SERIES II HARD DRIVES.

These external hard drives are the perfect addition to your Amiga 500. Factory installed and formatted 1" high, low-power, 3.5" SCSI drives offer storage of 52, 120, or 240MByte. Every drive includes GVP's technologically advanced FaaastROM SCSI controller, fast onboard cache RAM, an internal fan, and a dedicated power supply. The 52 and 120MByte drives sprint at a blazing 11ms; the 240MByte drive gives even better performance with 9ms access speed. These popular Quantum drives are shipped without RAM but can support up to 8MByte with the easy-to-install SIMM modules listed here. Flexibility and power are ensured by the ability to daisy chain SCSI devices to the expansion system's external SCSI port. Just plug the drive into the expansion port on the side of your A500—what could be easier? One-year warranty. From GVP.

A500-HD8+0MB/52Q II	93981	\$499.00
A500-HD8+0MB/120Q II	C10039	\$649.00
A500-HD8+0MB/240Q II	C10047	\$899.00

### A2000 IMPACT SERIES II HARD CARDS.

Plug a state-of-the-art GVP hard card and SCSI controller combination into just one expansion slot on your A2000 for improved system performance and increased data storage capabilities. Because the hard card plugs into the expansion slot, you're free to use the peripheral bays for other uses. The hard drives have fast cache RAM onboard and are available in 52, 120, or 240MByte capacities with blazing speeds of 11ms, 11ms, and 9ms, respectively. Shipped without RAM, the boards can accept up to 8MByte memory for enhancing system performance even further. The SCSI controller features GVP's high-performance FaaastROM technology. The Impact Series II hard cards—for those who place a premium on space and performance. One-year warranty.

### IMPACT SERIES II HARD DRIVE/HARD CARD MEMORY EXPANSION.

Easy plug-in memory modules add RAM in 1MByte increments.

1MByte SIMM	93693	\$44.95
-------------	-------	---------

## Prima Performance Without the Premium Price

### Hard Drive Installs *Inside* Your Amiga 500

### TENEX 52MBYTE DRIVE/ICD KIT.

When we saw ICD's new Prima hard drives, we knew they had the features that Amiga 500 owners wanted: 52 or even 105MBytes of storage installable *inside* the A500, autobooting, high-speed caching, and more. There was just one problem—the price was too high. So at TENEX, we came up with an unbeatable combination: a high-quality hard drive from Quantum (the same one ICD uses in their Prima drives) and the conversion hardware direct from ICD. We package everything in one easy-to-install kit—no soldering is required. The hard drive installs in place of your original floppy drive. You'll need an Amiga 500 with a switching power supply (all newer 500s have one), an external floppy drive like our Rotech 3.5" drive, and at least 1MByte of RAM. Suggested retail for the Prima 52i is \$549.95; for the 105i, \$799.95. Compare our TENEX value-priced combos below, and make the switch to fast, convenient hard drive computing today!

TENEX 52MByte Kit	95719	\$355.00
TENEX 105MByte Kit	95724	\$479.00

## Genuine Commodore Hard Drive

Combo030-50/50/4/240	97590	\$2129.00

### G-FORCE 040—28MHz 68040 ACCELERATORS.

Add 68040 power to your A3000 or A3000T for the ultimate in graphics, animation, and ray tracing capabilities. Includes 2MByte RAM and can be upgraded to a full 8MByte RAM. Requires ROM-based Kickstart.

G-Force3000-040/28/2	99124	\$2099.00
----------------------	-------	-----------

### G-FORCE ACCELERATOR RAM UPGRADES.

Add super-fast RAM to your G-Force 030 or 040 accelerator board. We recommend the 60ns SIMM upgrade for the G-Force 030 Accelerators and the 40ns upgrade for the G-Force 040 Accelerator. These SIMMs must be added in pairs. Call for latest pricing.

1MByte, 60ns SIMM	C10076	\$89.95
4MByte, 60ns SIMM	C10089	\$239.95
1MByte, 40ns SIMM	C10092	\$219.95

## Supercharge your Amiga with Enhanced Chip Sets

### "ROCKWELL" TYPE CHIP PULLER.

Highly recommended for removing Agnus and Fat Agnus chips without damage to chip or socket.

Chip Puller	C10249	\$14.95
-------------	--------	---------

### ENHANCED CHIP SET UPGRADES.

These enhanced chip sets are perfect as replacements for your A3000 or system upgrades for your A500/A2000. They come standard on the A3000, but may be added to your A500/A2000 system. Note: some older Amiga models may not readily accept these upgrades. Consult your owner's manual for details.

### FAT AGNUS, 2MByte.

Enhanced chip set with three microprocessors on board provides 2MByte addressable graphics memory for high-resolution graphics use. Plugs directly into Agnus socket on A3000. For use in an A500/A2000, the chip set installs in the MegAChip 2000 board.

Fat Agnus 8372B, 2MByte	98564	\$79.95
Fat Agnus 8372B/MegAChip 2000 bundle	C10013	\$299.00

### FAT AGNUS, 1MByte.

Provides 1MByte addressable graphics memory for high-resolution displays. Plugs directly into Agnus socket on A3000, A2000, and A500.

Fat Agnus 8372A, 1MByte	98553	\$59.95
-------------------------	-------	---------

### SUPER DENISE.

Add to A500/A2000 for high-res graphics and more display modes. Requires Workbench 2.0.

Super Denise 8373	98572	\$44.95
-------------------	-------	---------

### STANDARD CHIP SET REPLACEMENTS.

Need a replacement chip set to get your Amiga running up to snuff? These chips come standard on A500 and A2000 models.

### DENISE.

Replacement graphics chip for your A500/A2000.

Denise 8362	98585	\$24.95
-------------	-------	---------

### PAULA.

Replacement audio chip for any Amiga computer.

Paula 8364	98597	\$24.95
------------	-------	---------

### GARY.

Replacement chip for your A500/A2000 controls I/O functions.

Gary 5719	98600	\$12.95
-----------	-------	---------

### CIA.

This Complex Interface Adapter controls I/O functions. Standard equipment on A500/A2000 and A3000.

CIA, 8520A	98612	\$11.95
------------	-------	---------

### ROM 1.3.

Replacement ROM for use with Workbench 1.3.

ROM, 1.3	98624	\$29.95
----------	-------	---------

## Valuable Data Life Saver

GVP

### WT-150 TAPE BACKUP.

Great for backing up your critical data. Backup time is approximately 6MByte per minute. Stores maximum of 150MByte per tape. Includes GVP TapeStore backup/restore software utility for fast, easy-to-use, backup of hard drives. From GVP. Sug. Retail \$995.00/\$899.00

External Backup	94586	\$699.00

## Removable Hard Drives

### SYQUEST DRIVES FOR AMIGA & MAC.

SyQuest sets the industry standard for high-capacity, removable hard disks. The ultimate in portability and security. No more expensive hard drive upgrading.

The 5.25", half-height Winchester drive provides unlimited storage capacity via removable cartridges. These 20ms access cartridges are totally portable and easy to store or mail. The higher capacity 88MByte drive is "downward compatible", capable of reading the data written on 44MByte cartridges.

SyQuest—reliable performance that rivals the world's best conventional hard drives. Two-year warranty. Requires SCSI controller. 88MByte drive does not include data cartridges. 44MByte drive includes two data cartridges.

## Pack 22 Floppies into One!

AMIGA  
SYSTEMS  
UPGRADES  
45  
HARDWARE

### 20MByte FLOPTICAL DISK DRIVE.

Now the latest in floptical disk drive technology is available for the Amiga. This mass storage solution offers an unprecedented price-to-performance ratio as it stores a whopping 20MByte of data on each removable, floppy/optical diskette. It provides an average seek time of 65ms and is downward compatible with standard, 3.5" 880KByte floppies, making it ideal for data backup and file transfer applications.

Your Amiga is the perfect machine for graphics and multimedia applications; as a result, you must somehow manage those huge data and image files. Floptical technology—a combination of the best features of precision optical tracking and traditional magnetic recording—is the perfect solution. Take advantage of its power, flexibility, cost savings, and data reliability.

The external drive comes in a rugged, half-height enclosure with an auto-switching power supply, external SCSI cable, and one 20MByte diskette. The internal version requires a 3.5", half-height slot and includes an internal power adapter, internal SCSI cable, and one 20MByte diskette. Both versions require SCSI controller. One-year warranty. From Digital Micronics.

Internal Floptical Drive	98668	\$559.00
External Floptical Drive	98659	\$679.00
20MByte Floptical Diskette	98160	\$19.99

## So Many Ways to Add IBM-Compatibility

LOWEST  
PRICE EVER!

Commodore

### IBM Compatibility Breakthrough

#### BRIDGEBOARD.

By popping the Bridgeboard into an A2000 expansion slot, you add IBM-compatible features to your Amiga—while retaining all of the Amiga's advanced abilities. The board features an 8088 microprocessor, 512KByte RAM, a PC-XT BIOS, a 5.25" 360KByte floppy drive, an external floppy drive connector, and a socket for a math coprocessor. These IBM-compatible features allow you to run thousands of MS-DOS software programs at the same time as you're running your Amiga applications. The files can be viewed simultaneously on the same monitor in separate windows, on separate screens, or on separate monitors. Transferring files back and forth between the two platforms is a snap.

The MS-DOS and Amiga systems can even share storage devices. For example, a hard drive installed on the PC bus may be configured with a separate partition for your Amiga files. You also can add video adapters, modems, and other upgrades using the two IBM-compatible expansion slots. You get Microsoft Mouse compatibility using the Amiga's mouse, a separate time/date stamp, MS-DOS 3.3, GW-BASIC, Janus System software, and much more. From Commodore.

Bridgeboard XT	84706	\$219.95
Bridgeboard AT	84719	\$429.00

<b>NEW LOW PRICE</b>

### Run DOS Software on Your A500!

Add 286 "PC/AT" compatibility to your A500

#### POWER PC BOARD.

Frustrated by the inability to access files and top-notch applications? This is your solution. The Power PC Board turns your Amiga 500 or 2000 into an IBM-compatible workhorse, ready to run almost any program from the vast array of MS-DOS software that's on the market today. Just plug the board into an available expansion slot, load the software, and you're ready to run DOS programs with a full 1MByte RAM in DOS mode. You even get a 512KByte RAM disk in Amiga mode. Plus, the Power PC Board supports up to three hard drives, external memory expansion, and provides parallel and serial port emulation. Also supports Hercules, CGA, VGA, and MGA formats. Includes battery-backed clock/calendar. Workbench 2.0 compatible. From Supra.

Power PC Board	96620	\$269.95

<b>NEW LOW PRICE</b>		
----------------------	--	--

### 16MHz "PC/AT" Plug-In!

Plugs into GVP Hard Drive—No Need to Open the A500!

#### PC/286 MODULE.

The magic of IBM PC/AT emulation is possible with this great, new module for your GVP A500-HD8+ hard drive. Just plug this 16MHz 286 emulator module into the "mini-slot" on the drive and you can run DOS 3.2 and up, Windows 3.0, and literally thousands of PC applications. Run MS-DOS and AmigaDOS programs concurrently! You can even read/write DOS files with your A500's floppy drives. The PC/286 Module is warranted for two full years and does not void your computer's warranty. So take advantage of the best of both worlds. It's like having two computers for the price of one! From GVP.

AMIGA, Disk	97713	\$399.00
-------------	-------	----------

<b>NEW LOW PRICE</b>		
----------------------	--	--

### Instant IBM Compatibility

#### ATonce-PLUS 16MHz PC/AT EMULATOR

Bridge the gap between the DOS and Amiga worlds with the ATonce-Plus PC emulator board. Plug this board into your A500, A500+, or A2000 systemboard to make use of its 16-bit CMOS 80286 16MHz IBM-compatible CPU and your AmigaDOS system simultaneously. Run DOS 3.2 through 5.0 or DR DOS 5.0 and 6.0 as well as the thousands of software programs available in the DOS world including Windows 3.0. With your existing RAM and the 512KByte of fast RAM on board, you have a high-performance system running a Norton SI=16! Add a coprocessor to the socket provided and math-intensive programs such as Excel, AutoCAD, and Lotus 1-2-3 run like champs. The clever design of the ATonce-Plus allows your Amiga expansion ports to remain free for further growth. Better yet, already installed trap-door expansion, e.g., 1.8MByte RAM, does not need to be removed as with some other PC emulators. Add the ATonce-Plus to your Amiga system—it's a great way to get the best of both worlds! Note: not for use in conjunction with accelerator boards. From Vortex. Sug. Retail \$439.95

ATonce-Plus	A70756	\$329.00
-------------	--------	----------

### Expand Your 500

Gains IBM-compatible slots, too!

#### BODEGA BAY.

You'll get more power and flexibility than you ever thought possible with this modular expansion console for your Amiga 500. You get four 100-pin A2000-compatible board slots. Add a hard disk controller, RAM board, or any other A2000-compatible board for amazing expansion capabilities.

With three IBM-compatible slots, you can install a Bridgeboard to take advantage of powerful IBM computing, too. The console includes two 5.25" drive bays and 3.5" drives may be installed with optional mounting kits.

The Bodega Bay comes equipped with a powerful, internal power source that supports the expansion hardware and the A500 itself. A must-have for the serious Amiga owner. One-year warranty. From California Access.

## The Ultimate Video Device!

IBM Wants It! Apple Wants It! Amiga Has It!

## VIDEO TOASTER 2.0.

NewTek's Video Toaster has revolutionized video production on the desktop. Now, the original release has been replaced with a remarkably significant upgrade—version 2.0.

The Video Toaster includes a Production Switcher, Digital Video Effects Generator, Character Generator, Paint Program, 3D Modeler, Animation System, and Color Processing Engine. The new version even includes an alpha channel mode that enables the two frame buffers to be used for 32-bit applications. Plus, you get 50% more effects and new modes that allow realtime warping, soft-edge transitions, and organic effects such as clouds, pouring liquid, fire, tearing paper, breaking glass, and more. Other enhancements include a completely revised object modeler, faster rendering, over 100 new features in LightWave, a sharper luminance key mode, new fonts, more objects, file compression, faster frame loading, a brand new manual with more tutorials, and much, much more.

With this combination of features, you're able to create professional video effects at a cost far lower than traditional studio equipment. It's no surprise that hundreds of television stations, ad agencies, and other video professionals rely on the Toaster for their own video creations. Users working in environments where there is a need to share files with Macs, PCs, and Workstations will benefit from the upgrade's amazing list of file compatibility.

You can output any of this to a VCR. To use a VCR or a camcorder for taped input, you'll need a device with a built-in time base corrector or a stand-alone time base corrector such as the "Personal TBC" or Digital Creation's "Kitchen Sync."

The Toaster requires an Amiga 2000 series computer with at least 5MBytes of memory and a hard disk drive of at least 40MBytes. Start your own video revolution today with a Video Toaster!

## Video Necessities

### 16 Million Colors, Frame Buffer, Genlock, and Much More!

#### IMPACT VISION 24.

Now there is a complete solution for your professional video needs. You get 16 million colors, a 24-bit frame buffer, genlock and frame grabber capabilities, flicker-free and PIP displays, video tiling, 3D modeling, and more—all in a single board! The true-color, RGB frame buffer allows software switching between PAL and NTSC modes. Then, freeze video or grab a single frame from the external, live video source and save it to disk. Record to video tape or view displays on a standard TV monitor with the NTSC and PAL composite video output connector.

When connected to a VGA or multisync monitor, you'll get a flicker-free display. With Picture-in-Picture (PIP) video monitoring, you can view a live video source in a window surrounded by Amiga or 24-bit graphics. Great for creating interactive presentations, special effects, monitoring security camera output, and more! With the analog and digital RGB genlock, overlay images on incoming composite or RGB video sources. Also includes powerful software providing 3D modeling, paint, video tiling capabilities, and more. Just plug the IV24 board into the Zorro/Video slot in your A3000 or the Zorro slot in your A2000. Use the optional cable adapter with the A2000's Genlock slot. From GVP.

## Video Blender For The Amiga

### VIDEO BLENDER.

Provides professional, full-featured desktop video for all Amigas from the A500 to the A3000. Overlay Amiga graphics onto the video source of your choice. The Blender has four genlock modes: foreground, inverted, mixed, and encoded. Fade, switch, chroma/luma key, and wipe between four channels: composite video, Amiga graphics, RGB video, and up to 16 million background colors. Mix any two video sources for special effects. Enjoy virtually unlimited custom wipe generation with included Mixmaster software. Even two stereo sound channels can be switched, mixed, or faded. Every setting and feature can be saved as a Blender "event" and saved as a video session. Output is compatible with many other video peripherals. Time base corrected input is not required. Both NTSC and PAL compatible. Requires 1MByte RAM.

## Combine Live Video and Computer Graphics

### CHROMAKEY.

You see the magic during the evening newscast as the weatherman stands before his map—live video in front of a graphic image. Now, the first desktop chromakey lets you produce the same effect for a remarkably low cost. Run any composite video source to the ChromaKey, even consumer camcorders and VCR video. Any blue object or background will disappear allowing the graphic image to act as a backdrop for the video. Your Amiga graphic, text, or animation can be hand drawn, scanned, computer rendered, or digitized. Now, your objects and actors can appear in exotic locations or interact with a computer generated "virtual reality". It's easy. And installation takes only a few minutes. Includes a disk full of computer graphics, a demo tape, an excellent user's manual, and more! Requires an Amiga computer and external genlock. Note: not currently compatible with internal genlocks or VideoToaster-equipped computers. From MicroSearch.

ChromaKey

## Incomparable Display Quality

### FIRECRACKER 24.

Get splendid, true 24-bit color with the Firecracker 24. Internally generated 24-bit frame buffers such as DCTV and the Video Toaster provide 24-bit color, but are limited by their composite (NTSC) output modes that allow for only 2-4 million color displays. The Firecracker 24 features analog RGB, 24-bit color processing—no information is lost in between your software and the monitor—each and every pixel can appear as any of over 16 million colors. Works with Amiga models 2000, 2000HD, 2500, and 3000. Recommended for use with 1084S monitor. Includes 2MByte on board and DB-23 to DB-15 monitor cable. Not for use with internal genlock. From Impulse, Inc.

Firecracker 24

## Connect Your Amiga to a TV!

### AMIGA 520 VIDEO ADAPTER.

Connect your Amiga 500 to either a standard TV set or a color composite video monitor and enjoy a working audio/video display. The adapter converts the A500's RGB video and audio signals into both an RF modulated signal and a color composite signal. Along with the adapter, you get a Y-audio cable allowing the Amiga sound to be heard from the TV, a TV connector cable, and a TV switch box so that you can switch between the A500 and normal TV broadcasts.

## Edit Video Tape Like A Professional

### VIDEO DIRECTOR.

Video editing has never been easier. With your Amiga, control the scenes from your camcorder or VCR video. Choose selected sequences, name them, arrange them, and assemble them into a beautifully edited final tape. The push-button interface makes editing fast and easy—you'll wonder how you ever tolerated the tedium of manual editing. The Video Director even maintains a library of clips so that you can locate video sequences in an instant. Includes remote controller and a serial port interface for controlling VCRs or camcorders equipped with "remote", "Control-L", or "LANC" inputs. Supports Digital Creation's SuperGen genlock for the addition of titles and graphics. May also be used with the Panasonic AG 1960/RS VCR and Selectra Vuport and Sony Vbox interfaces. Workbench 2.0 compatible. From Gold Disk.

# Record/Edit/Compose On Your Amiga

## Learn to Play the Piano the Easy Way — Includes Keyboard & Miracle Teaching System

### MIRACLE PIANO TEACHING SYSTEM.

As kids, most of us had to be dragged kicking and screaming to our piano lessons. Practicing was an excruciating exercise in futility. The Miracle Piano Teaching System is changing all that. It's a revolutionary learning method that conquers traditional teaching hurdles by making studying fun and productive.

Through the use of video games, learning is accelerated. Without realizing, pick up the fundamentals— fingering, music notation, rhythm, etc. From the start, you'll build a repertoire ranging show tunes to contemporary rock to standard favorites.

The system includes a state-of-the-art electronic piano keyboard capable of synthesizing more than 100 digitized instruments including piano, drums, and saxophone. Hook the keyboard to your Amiga via the included 25- to 25-pin cable. Or, use the synthesizer as a stand-alone instrument to produce high-quality sound without the computer platform. You also get utility software, an AC adapter, earphones, and output jacks so that you can use the system with your stereo. (Note: A1000 owners will need a one-to-one gender changer). From Software Toolworks. Retail \$479.95

Miracle System	99026	\$344.95
Gender changer, F/F	A33439	\$9.95

### SOUNDMASTER.

This hot, new sound digitizer samples at rates up to 56 thousand cycles per second. That's even faster than the rates used to create compact discs! You get clean, high-fidelity sound because of high-speed sampling rates. The slider bar lets you adjust sampling volume and the overload indicator lets you know when the volume is too high so that you can maximize the sound level and minimize distortion— you get perfect sound every time. Includes AudioMaster III for digitizer and sample editing capabilities, two RCA input jacks, and two microphone jacks to grab input from CDs and other sources. It even has a built-in dynamic microphone for voice digitizing and voice-mail applications. Just plug the 8-bit unit into the parallel port on any Amiga computer. For use with AmigaDOS 1.3 and 2.0. From Oxxl.

SoundMaster	98376	Sug. Retail \$199.95
		<b>\$134.95</b>

### DIGITAL SOUND STUDIO.

Record sound samples from any source— voices, noise, instruments— to create your own music and sound effects for home video, animation, visual presentations, voice overs.... Use the realtime editor to add effects like reverb and echo, run sounds backward, alter waveforms, cut and paste segments, create loops, and eliminate pops and scratches. Or, just as easily, compose your own music with the four-track sequencer and your Amiga or MIDI keyboard. Call on up to 32 instruments at a time, in up to four octaves with eight different variable effects. Mix and modify sounds in realtime. Just plug the 8-bit board into the parallel port on your Amiga 500, 2000, or 3000 and you're off and running. This powerful editing tool is compatible with AmigaDOS 2.0, SoundTracker, NoiseTracker, and SoundFX modules— it just may change the way you look at sound.

AMIGA ENTERTAINMENT

### B.A.T.

.info Magazine "Top 10 Game of 1991." B.A.T., the top-secret Bureau of Astral Troubleshooters, has been assigned the mission of keeping peace throughout the galaxy. No easy task now that our 23rd Century world knows the likes of The Galaxy Confederation and Vrangor, the evil genius. This futuristic adventure combines astro-flight simulation with high-tech combat and outstanding graphics and sound. From Electronic Arts.

Sug. Retail \$49.95

AMIGA, Disk 98383 \$34.95

### RISE OF THE DRAGON.

The year is 2053 and Los Angeles is not the city we know today. You're Blade Hunter, a tough cop, with the job of stopping the rise of the dragon. It's a story filled with hard-fighting action, intrigue, and puzzles. You'll need every bit of your muscle and wit to squelch the evil demon. Great attention to detail and a superb soundtrack make this one irresistible! Hard disk and 1MByte RAM required. From Dynamix.

Sug. Retail \$59.95

AMIGA, Disk 98768 \$36.95

### DAEMONSGATE.

One of the most impressive fantasy role-playing adventures ever developed, Daemonsgate takes you along with Captain Gustavus and his loyal compatriots on a journey through the mythical Continent of Elseopea. You're searching for a strange mystic who holds the knowledge that could save your homeland from an army of powerful Daemons. Features beautiful graphics and a perfectly moody soundtrack. Includes a video hint tape and maps to help you find your way. From Imagitec Design.

Sug. Retail \$64.95

AMIGA, Disk 99037 \$39.95

### MYTH.

Civilization has been overrun by the spread of evil. Mythological gods and demons rule with cast iron law and harsh sorcery. Through sheer force and your own brand of magic, it's up to you to slay the diabolical forces and save the kingdom. This masterful creation from System 3 has won major awards on a variety of computer platforms. From System 3.

Sug. Retail \$25.99

AMIGA, Disk C10005 \$18.95

### FANTASTIC VOYAGE.

A team of high-tech specialists in a miniaturized submarine race against time through the human body via the bloodstream to save the life of a brilliant scientist. Around every turn, you'll encounter white blood cells and other defense mechanisms that the body is sending to destroy you. It's a fascinating trip through the most amazing world ever traversed. You'll marvel at the beautiful, constantly changing background of colors as you sail past leukocytes, cancer cells, and subatomic particles on your journey through the capillaries.

The illusion of moving through fluid perfectly done. And, the sound effects and music are as cool as the graphics. This is science fiction and computer arcade graphics at their best. (If you haven't seen the 1966 movie by the same name, watch for it on late-night cable. It's a classic!) From Centaur.

Sug. Retail \$49.00

AMIGA, Disk 98366 \$27.95

### SUPER SPACE INVADERS.

One of the most popular games of all time is back and even better than before. Super Space Invaders gives you more hair-raising, nail-biting, edge-of-your-seat fun than any one person should be subjected to. Features superb graphics and perfect, shoot-'em-up sound effects. Requires 1MByte RAM. From DoMark. Sug. Retail \$39.95

AMIGA, Disk 98995 \$27.95

### SILENT SERVICE II.

The original Silent Service won "Simulation of the Year" and "Best Adventure Game" honors. Now, the drama continues with this fast-paced submarine simulation that features realistic undersea combat in the WWII Pacific. Offering the latest advances in sound, graphics, and game design with all-new targets and scenarios, Silent Service II provides the ultimate in strategic warfare. From Microprose.

Sug. Retail \$59.99

### PIT-FIGHTER.

Welcome to the meanest, toughest way of making a living! Enter the World of Pitfighting. You'll face thugs like you've never seen before: The Executioner, Heavy Metal, Chain Man Eddie.... This brutally addictive game features incredible graphics, terrific sound effects, and action so real that you'll be sore for days afterward. From DoMark.

Sug. Retail \$39.95

AMIGA, Disk 99001 \$23.95

### 4-D BOXING.

Choose from a full range of punches, blocks, and taunts. Create up to 10 personalized boxers—give each of them unique names, faces, and skills. View the action from nine adjustable camera angles. Relive the greatest blows with slow motion video replays. All of the realistic action is made possible by a technique that uses actual human boxing motion, 3-D polygon graphics, and state-of-the-art animation techniques to bring you fluid, lifelike boxing movements. Play against a friend or against 50 computer opponents. From Electronic Arts.

Sug. Retail \$49.95

AMIGA, Disk 98954 \$31.95

"I can't recall the last time I had so much fun with a war game."

— AmigaWorld

### THE PERFECT GENERAL.

This is one of the best war games available. Pit your best strategy skills against the computer (a formidable opponent) or go head-to-head with a friend (beside you or via modem). Either way, you'll love the glowing landscape, rich sound effects, and challenging play. Offering detailed control of every move and shot, it's your chance to prove yourself as The Perfect General. From Quantum.

Sug. Retail \$59.99

AMIGA, Disk 98779 \$36.95

### CHIP'S CHALLENGE.

If you like puzzle games, you're in for a real treat. Chip takes you through 144 levels of brain-teasing challenges. Each level is increasing difficult and has a storyline behind it. Along the way, you'll encounter monsters, bugs, thieves, secret passageways, bear traps, fire, clone machines, and more. Don't be surprised if you have to stop play to take notes or make maps—the action is very complex, but clues and hints are available when you find yourself in a tight spot. Chip's Challenge has lots of nice design touches. It's easy to learn but difficult to master, making it one of the best, most enduring puzzle games ever! From Epyx.

AMIGA, Disk 92881 \$29.95

### ATOMINO.

.info Magazine "Top 10 Game of 1991." You are the mad chemist who must form molecules from the atoms which spontaneously generate in your test tube. But, the road to this goal is fraught with obstacles and a continually ticking clock. Atomino is an addictive, electronic brain-teaser. It features great sound and the crisp graphics and intuitive play which you've come to expect from Psygnosis.

Sug. Retail \$49.99

AMIGA, Disk 98786 \$32.95

### ARMOUR-GEDDON.

A sinister alien power wants control of Earth. You've been assigned command of a fleet of high-tech weapons to counter the evil threat. Each of your six war vehicles has distinct and realistic handling characteristics. Each has a powerful arsenal. You can even build your own high-tech devices from parts salvaged during battle. But, you'll need every ounce of firepower you can muster, so don't let your guard down. The alien power is only a heartbeat away. Armour-Geddon features a huge virtual playing environment and complex, realtime 3-D forms. Use the serial-link option to combine forces with, or compete against, a friend. A must have! From Psygnosis.

Sug. Retail \$49.99

AMIGA, Disk 98979 \$32.95

### AGONY.

Yours is the quest for universal energy. All that stands in your way is the evil Drizkol and his hideous minions—they'll stop at nothing to stop you. At your disposal are the most magical of spells and potions. But first, you must find and learn how to employ them. Your success depends on it and your ability to change from human form to take flight as an arcane owl or do battle in the form of a gruesome ghost. This new adventure follows the classic Psygnosis style—colorful, captivating, and challenging. From Psygnosis.

Sug. Retail \$49.95

AMIGA, Disk 98968 \$32.95

"...the easiest, most intuitive play I've seen in a wargame."

— .info Magazine

"...true to Psygnosis' style, the graphics and sound are outstanding."

— AmigaAnimation

### CARTHAGE.

Repel the Roman invasion by skillfully executing the right strategies to move and resupply your armies and deploy them for battle. ## Super Graphics and Digitizing Bundle

## Limited Supply!

If you want to work with graphics on your Amiga, here's a great way to assemble everything you need at a fraction of its normal cost! This package would normally cost several times our low Tenex price! Includes:

SummaSketch AProDraw 12"x12" Digitizing Tablet  
DigiView Gold Hardware & Software  
DigiDroid Motorized Filter Wheel for DigiView  
Deluxe Paint II Software (with Deluxe Help tutor)  
Heavy Duty Lighted Copy Stand & Bulbs  
A-B Switch Box with cables

To use DigiView to digitize photos, pictures, or even objects, you'll need to connect a video source like a video camera or camcorder. If you don't have a suitable camera, check out our Panasonic TV Camera on page 29. Our Panasonic camera will attach right to the copy stand for fast & easy image processing. Separately, these items retail for over \$1,000! Tenex brings them to you for the price of a digitizing tablet or a good copy stand!

Super Graphics/Digitizing Bundle

C10122

\$399.00

## Run C64 Software on Your Amiga

## A64 Package.

Thinking about upgrading to an Amiga, but don't want to give up your valuable C64 software and data? Now, with the A64 emulator package from Questronix, you can connect your 1541 or other Commodore disk drive to your Amiga 500 or 2000 and actually run your C64 software on the Amiga! AmigaWorld called the A64 Package "a breeze to install" and "far more redefined than its competitors." Some software which incorporates disk "fast load" may not work, and the speed of operation of some games may change depending on the speed of your Amiga. Package includes both disk software and special adapter cable.

## Hot, New Amiga Hardware!!

### LIGHTENING FAST GRAPHICS CO-PROCESSOR

#### DMI RESOLVER.

Watch your video come to life with this graphics co-processor board. The DMI Resolver boosts the display and graphics processing capabilities of all Amiga 2000/3000 series computers using AmigaDOS or UNIX. This is not a frame buffer or grabber, but instead is a lightning fast 50 MHz graphics co-processor. Ideal for desktop publishing, presentation graphics, animation, 3D modeling, ray tracing, rendering, and CAD. The DMI Resolver offers 1280 x 1024 resolution, 8 bit color graphics, 16 million color palette, 60 MHz Processor and Programmable Resolution. TENEX offers two models of this video powerhouse. The DMI-010-A offers resolutions of 1024 x 768 (non-interlaced) and 1024 x 1024 (interlaced). It has 1MB for overlay planes, 1MB of Video RAM, and 2MB of Program Memory. The DMI-010-C offers resolutions of 1280 x 1024 (non-interlaced) and 2048 x 2048 (interlaced). It also has 1MB for overlay planes, 4MB of Video Memory, and 4MB of Program Memory. Better picture quality, more colors, and a faster display is only a phone call away. Comes free with Resolver Workbench, DMI Paint, Tweek (sets resolution), SAGE, and the TMS340 Graphics Library. From Digital Micronics.

### INCREASE AMIGA PERFORMANCE BY 200%!

#### BLIZZARD BOARD.

This Amiga Turbo and Expansion Board offers many fine features including an increase in performance by 200%, Ram expansion up to 8MB, 14MHz or 7 MHz selectable, 512K Shadow Memory Option, easy installation, and a five year warranty. The Blizzard Board installs inside the Amiga in the 68000 socket which saves space and does not tie up a system slot. In addition, there are no cuts or jumper wires needed which could void the computer's warranty. Compatible with the A500, A1000, and A2000. NOTICE: A special adapter is required for the A1000 which is sold separately. From Preferred Tech. Int'l Inc. Sug. Retail \$259.00

Blizzard Board	C10908	\$219.95
----------------	--------	----------

### MAKE YOUR A500 A SPEED DEMON!

#### PROGRESSIVE 040/500 + 4MB

In the computer business, speed is power. You get both with Progressive's 040/500 which brings the performance of 28 MHz 68040 acceleration, fully populated with 4MB of 32 bit RAM to Amiga 500 users. This speeder runs at up to 25 times the speed of a standard Amiga 500 and up to 5 times the speed of Amiga 500 69030-based accelerators. The Progressive is compatible with nearly all commercial software and hardware for the A500. The 040/500 + 4MB features a software switchable 68000 fallback mode for entertainment software, on-board 2.0 Kickstart ROM's, and is software switchable between Amiga DOS 1.3 and 2.0. There are no jumpers to set, and it connects internally to the Amiga 500 and 500+(PAL). The 040/500 is compatible with external Amiga 500 hard drives and memory expansions as well as genlocks, 3-D modeling software, paint programs, desktop publishing, CAD, word processing, and many other applications. In fact, the built-in floating point processor boosts the speed of 3-D tracing and rendering programs. From Progressive Peripherals.

Progressive 040/500 +4MB	C10339	Call For Price

## Best-Selling Printer Interface

\$39.95

#### CARDPRINT G-WIZ INTERFACE.

Connect virtually any standard (parallel) printer to your Commodore. Here's an interface that can't be matched for price and performance! Designed by the same company that produced the +G, the all-time, best-selling Commodore interface. The G-Wiz buffer dumps high-resolution screens up to 18 times faster than competitive interfaces without buffers. No more waiting! Only the G-Wiz matches graphics characters to standard characters on Okidata, Epson, Star, Prowriter, Panasonic, and many other dot-matrix printers. This means you can perfectly align high-resolution graphics characters within text blocks, or in columns. 90-day warranty from Supra.

CardPrint G-Wiz Interface	34484	\$39.95
---------------------------	-------	---------

### OUR HOTTEST JOYSTICK for the C64 and Amiga AUTOFIRE PLUS ERGONOMIC DESIGN!

#### NAVIGATOR.

Ergonomic design ensures a perfect fit for any hand (right or left). The fire button is positioned directly beneath your trigger finger for super fast reactions. The auto fire selection lets you set the button to fire continually and concentrate on control. A great way to blast the enemies. A solid steel unbreakable shaft runs into microswitch modules that give great precision control. For C64/128 and Amiga. From Konix.

Navigator	C10846	\$16.95
-----------	--------	---------

### LOW COST SPEED BOOSTER FOR THE AMIGA!

#### MEGA MIDGET RACER.

Why suffer along at a snail's pace with your Amiga? Now you can speed up to 25 MHz accelerated performance for a great price. This accelerator board uses the new Motorola 68EC030 embedded control MPU. This unit is a full speed 030 with Data and Instruction caches and nearly all the features of a standard 68030. This unit provides great savings while running Amiga software such as The Video Toaster, DCTV, Imagine, Pro-Page, PageStream, Excellence, and more. Not compatible with programs requiring the MMU (like UNIX) which requires the standard 68030. The GOOD NEWS is that you can replace the CPU with a standard 68030 at any time and hence add MMU capability. For the A500/1000/2000. From CSA.

Sug. Retail \$599.00

Mega Midget Racer	C10998	\$399.95
